## **DETAILED ACTION**

### ***Election/Restrictions***

Claim 1 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 7, 8, 12, 18-21 and 24, directed to other species are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

### ***Allowable Subject Matter***

Claims 1-14 and 16-24 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor suggest, in the claimed combination, a switch with three beams, wherein each of the beams are horizontally moveable relative to one another, and are arranged horizontally with constant spacing from one another and a voltage applying means for providing a direct current potential to the first, second and third beams and applying a driving force to move the first, second and third beams, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
